Mail Stop Petition
Commissioner for Patents
United States Patent and Trademark Officer
P. O. Box 1450
Alexandria, VA 22313-1450

Sir:

RENEWED PETITION PURSUANT TO 37 C. F. R. § 1.181(A)

TO WITHDRAW HOLDING OF ABANDONMENT

The Undersigned hereby renews his petition that the holding of abandonment set forth in the notice of abandonment dated June 16, 2008 be withdrawn. The Undersigned expresses appreciation to Mr. Shanoski for the explanation of additional materials that are required, as set forth in the Decision on the petition filed June 20, 2008. Further, the Undersigned regrets that the evidence provided electronically in connection with that petition was received in illegible form. Accordingly, the same evidence is presented herewith by way of letter in paper form, along with additional evidence as requested by Mr. Shanoski.

I hereby certify that this correspondence is being deposited with the United States Postal Service with sufficient postage as first class mail in an envelope addressed to: Mail Stop Petition, Commissioner for Patents, United States Patent & Trademark Office, P.O. Box 1450, Alexandria, Virginia 22313-1450 on:

Substantiation of Petition; details

The Undersigned failed to receive the communication mailed December 5, 2007, concerning Notice of Non-Compliant Amendment.

As evidence of the non-receipt of the communication, please refer, first, to the printouts from the electronic docket system of the Assignee, which were previously submitted in the petition of June 20, 2008, but were illegible as then received and thus not considered. These documents are re-presented in a more legible paper form, and for reference, a typed-out version is also presented. Reconsideration is respectfully requested. These printouts indicate that the Notice and the one-month period for response were not entered. The first paper shows all the docket entries for docket number 3202 in the U.S. (that is, 3202R, as the "R" is not shown in this docket record). The latest entries relate to the office action of June 7, 2007, for which the 6 month final term is noted as December 7, 2007 and to which a response is noted as having been submitted on December 3. There are no subsequent entries (as of the date on which the docket system was queried, June 12, 2008). Note that the number of total action dates is listed as 20, and none are shown after the December 7, 2007 date, the 20th entry. This is confirmed by the second paper, which is a printout of a "screen view" showing the same data. The list of due dates is seen to be fully scrolled to the bottom and the December 7 entry is the last. This docket system is maintained by Lubrizol's docket clerk, and all mailings from the USPTO are received by her for docketing.

Further, in the Decision on Petition, Mr. Shanoski indicated that the following items should be supplied:

1. A description of the system used for recording office actions including the electronic docketing system, to indicate that it is sufficiently reliable.
2. Indication of performance of a search of Petitioner's records
3. A copy of the master docket, or statement that no such master docket exists.

1. Description of system. The Lubrizol Corporation uses the CPI computer docket system. CPI is the system of Computer Packages Inc. Patent Management Systems, which is one of the foremost docketing systems and is widely known and respected. The docket system is thus maintained electronically, rather than in a written log of entries. Information from the system is accessible by look-up at individual desks as well as by means of individual action dockets that are printed and distributed on a monthly basis or more frequently on request.

Docketing information for US cases is entered into the CPI system by our senior docket clerk, Ms. Cathy Bartel. Ms. Bartel has 23 years of experience in this position.

She has informed me, and it is consistent with my experience, that it is extremely rare (perhaps one instances in the past ten years, out of thousands of entries) that any properly addressed office action is not correctly entered into the docket, once it is actually received by Lubrizol. The Office Action in question was "properly addressed," that is, it was addressed to "Attn: Docket Clerk, Patent Dept."

The actual routing of such mail received within Lubrizol is that it is initially delivered to the mail box of the legal assistant of the Undersigned, Ms. Nancy Dedek, who then forwards such docketing materials to Ms. Bartel. After the office action is docketed, Ms. Bartel prominently marks the due dates for response thereon and returns them to Ms. Dedek, who delivers them to the appropriate attorney, normally rubber banded to the appropriate case file.

2. Indication of search of records: Upon receipt of the notice phone call from Examiner Ronesi on June 12, advising of the abandonment, I, the Undersigned, personally examined the tri-fold file folder that contains the record for Application 10/645,373, case number 3202R. There was no paper contained therein or rubber banded thereto advising of the non-compliant amendment. (The Undersigned subsequently personally printed out a copy of the notice from PAIR, and that is presently in the folder, with the notation "Printed from Public PAIR 6/12/08."). The last official correspondence in the file as of June 12 was a copy of the Petition for Extension of Time and Amendment, dated November 30, 2007 and submitted electronically December 3, 2007.

On or about the same day, June 12, the Undersigned personally conducted an electronic inquiry of the CPI system. This inquiry included doing a search on the "invention search" screen for "3202*" (* being a wildcard) in the "case number" field, then selecting the "applications" tab and clicking on the line for the US application. Thereafter I selected the screen for "actions" and selected "all actions." The resulting list of actions is the list that was printed out in two formats (directly and by "print screen) and submitted in the Petition of June 20.

Further, I consulted with Dr. Calvin Schroeck, one of our technical advisors, which is very familiar with the CPI docketing system, for advice on how best to conduct a thorough search and to present the results of the search of the data base. It is my recollection that at that time I also inquired of both my legal assistant, Ms. Nancy Dedek, and our docket clerk, Ms. Cathy Bartel, inquiring if they had come across any documents relating to this case that had not been docketed or entered into the file folder, or if any due dates might be located in any other fields in connection with this record. As I recall, they indicated that they were aware of none. I have now repeated this inquiry, for assurance, and received the same response.

I have now, upon further search, located a copy of my docket of due items that was generated by the CPI system and mailed to me electronically on January 3, 2008. This docket covers the time period beginning around December 2007 through 29 Feb 2008, when the outstanding office action would have been listed. I attach a printout, from which the titles of the applications have been deleted for confidentiality reasons. The due dates are arranged chronologically (upper left corner of each entry). There are three items that were due on January 5, but none of them refer to the present application. There are no entries at all for the present application, US 10/645,373 (see "App Number" near top right of each entry). See attached copy.

It is believed that there was also at that time another action docket prepared by the CPI system and sent by e-mail to Ms. Dedek, listing all of the cases with actions due for all of the "Lubrizol Additives" division of The Lubrizol Corporation. Upon conferring with Ms. Bartel and Ms. Dedek, we believe that all copies of that e-mail have been deleted over the past 8-9 month and thus they are not available without the extreme difficulty of regenerating long deleted e-mail files, if indeed that is possible. The docket report itself cannot be readily regenerated in a form predicated to January. I am convinced, however, that this slightly more complete docket would merely confirm the conclusions reached by examining all the other docket reports and presentations, namely, that there is no record of having received the office action.

3. Copy of Master Docket As indicated above, the master docket for The Lubrizol Corporation is maintained in electronic form, so there is no written master docket as such, and the docket as it exists today is not the same as it was in December and January. However, it is believed that the docket printouts supplied above will provide acceptable equivalent evidence.

A **substantive response** was submitted along with the Petition of June 20, 2008, and consideration of that response is respectfully requested at this time.

It is believed that no fee is due in connection with this petition. However, any required fees or any deficiency or overpayment in fees should be charged or credited to deposit account 12-2275 (The Lubrizol Corporation).

CONDITIONAL PETITION TO REVIVE FOR UNAVOIDABLE ABANDONMENT 37 CFR 1.137(A).

If and only if the above petition is still deemed to be inadequate, please consider this petition to revive under Rule 137(a). It is believed that the evidence submitted above will be adequate to show to the satisfaction of the Director that the entire delay in

filng the required reply was unavoidable. Since the Undersigned was not aware of the outstanding office action, because it had not been received, the failure to reply was unavoidable.

In the event that this Petition under rule 137(a) is required, please charge the required fee under 1.17(l), believed to be \$510.00, to deposit account 12-2275 (The Lubrizol Corporation)

**CONDITIONAL PETITION TO REVIVE FOR UNINTENTIONAL
ABANDONMENT 37 CFR 1.137 (B)**

If and only if both of the above petitions are deemed to be inadequate, please consider this petition to revive under Rule 137(b). The entire delay in filing the required reply from the due date for the reply until the filing of a grantable petition pursuant to this paragraph was unintentional.

In the event that this Petition under rule 137(a) is required, please charge the required fee under 1.17(m), believed to be \$1540.00, to deposit account 12-2275 (The Lubrizol Corporation).

Respectfully submitted,

Phone: (440) 347-1601

Telefax: (440) 347-1110
